

Nursing Facilities - HIPAA Crosswalk

Effective with claims for dates of service on and after October 1, 2003, nursing facilities must bill for services using new revenue codes. The Health Insurance Portability and Accountability Act (HIPAA) mandates standardization of codes by eliminating all local codes, including revenue codes 070, 072, 073, 074, 075, and 076. A crosswalk showing the relationship between the local revenue codes that are being eliminated, the new revenue codes which must be used, and the allowable bill types is available on the AHCCCS Web site at www.ahcccs.state.az.us. At the AHCCCS home page, click on "Information for Providers." **You must use the new revenue codes for dates of service on and after October 1, 2003. (See Below)**
